

PENETRATING OIL FG

NSF H1 REGISTERED SEIZED FASTENER LUBRICANT

Penetrating Oil FG is specifically developed for the food industry. It rapidly penetrates to loosen rust and scale to free corroded fasteners and mechanical components. Eases disassembly of mechanical equipment, fittings and assemblies. Can be used in areas where incidental contact with food may occur.

Penetrates deep into threads quickly and frees metal parts seized by dirt, rust, corrosion or dried-up greasy deposits. Penetrating Oil FG assists quick disassembly of mechanical components, fittings, assemblies, nuts and bolts and other close tolerance fasteners. Reduces scrap rate of seized parts and does not contain silicones.
